## Govt. Asks Your Indulgence

It is imperative that no distinction be drawn between the men called for training and the other men in the Canadian militia. They are to be welcomed into the Canadian army and they have every right to feel that their country honors them for the service for which their training will help to fit them

Many who are called for training will have already offered themselves for active service in one or other of the special services—air force, tanks, etc. They are now awaiting this opportunity. If they are not absorbed before their class is called they will train the same as everyone else.

Mr. and Mrs. C. G. Taylor have returned from their holidays in Fort William.

## Think This Over Support Your Local Town And Merchant

In strolling down the side walk last Saturday evening and seeing the line up of cars of the business men and farmers brought to my mind forcibly the need for the local people keeping their cash at home rather than sending it far out of their home town into hands of those who treat them only for what their money is worth

With the present crop in view farmers and towns people should take into consideration their local merchant. The local merchant, the man who has financed the greater part of our community for the past year.

When in case of sickness or death or some other dire need and the financial strain was too great for your wallet to bear to whom did you turn to?

Who in the spring and fall let you have material help in the form of repairs, grease, oil groceries and other necessary commodities and only asked your word as security? Your local merchant took his chances with yours from six months to a year until your grain is sold.

To whom would you turn if this present crop were destroyed or had their been a failure this year?

How many of our average citizens of this district can send an order to a mail order house and say "Charge it up"? The old time "folding stock" has to be ever present. Give your home town business man the opportunity to fill your orders that you would otherwise be sending to mail order houses. Show him your cash and your order and ten to one he can furnish you with the same quality for the same price.

Let everyone see their home town merchant first and remember it is in your interests to keep your town so that it is a convenience and an asset to your community.

A number of Mr. and Mrs. Jack Hopkins friends surprised them on Wednesday evening with a good old housewarming. The guests played games and enjoyed a lovely supper at mid night after which wished them every happiness and departed for home.

## - Editorial - Heres The Answer

An illuminating answer to the question why a family spends four cents a week for a subscription to its own local paper is furnished in the following editorial from the Bowmanville Canadian Statesman.

Four cents a week means just a little more than half a cent a day. It's a small amount. The average child wastes more than that every day. A special sale advertising a 30 cent item for 23 cents, will save seven cents, paying the cost of the newspaper and giving a profit of three cents. You pay more than three cents a day to rent a book. The home newspaper costs half a cent a day; and did you ever see anybody reading a book who didn't lay it aside promptly when the newspaper came? Every member of the family, from nine years of age up - children, parents, grandparents - find something of great interest in the home newspaper. That can't be truthfully said about any book or any other periodical. It costs more for any of the following than it does for your home newspaper; four cigarettes, one package of gum, a bar of candy, a cup of coffee. When you've finished reading your newspaper, every other member of the household can still use it. You can't say that about gum, candy or tobacco.

## Takes Duties Seriously

In the recent session of the House of Commons it is noted that E G Hansel, member for this riding took an increased part in the debates. We have followed the debates of the House during the past session and we can say with gratitude that the local member has made a distinct contribution to Canada's war time meeting.

While differing with the government in its financial policy Mr Hansel has throughout the session given all matters careful consideration, speaking on all major bills.

We believe that credit should be given at this time, not only to encourage him to further progressive action but because it is due him.

### Recruiting Halted For The NPAM August 15

Voluntary recruiting for the NPAM, as distinct from the CASE, will be suspended on August 15 for the time being.

Provisions will be made to bring into the militia the men who are to be called for training, duty and service in Canada under the National Resources Mobilization Act. The men thus recruited will be brought directly into the militia regiment throughout the country.

These men will be called for 30 days training, beginning, it is expected, about Oct 1, in

groups of approximately 30,000 men per month. Single men in the lower ages will be called first. It is unlikely that married men will be called during the first year.

It may be thought that 30 days is too brief a period in which to train men. It is a brief period. But the weight of opinion is that we must lay as broad and as deep a foundation as possible for the Canadian army. To withdraw 300,000 men from their work for more than 30 days over a year might jeopardize production of essential war commodities. It is necessary to give the largest number of men elementary military training in the shortest possible time.

## ASTAMP A DAY KEEPS HITLER AWAY

Harvesting begun on Monday in this district when Mr. Martin Clever combined wheat he sowed on the old golf course. The yield was 16 and a half bushels to the acre, weighing 63 lbs to the bushel and graded No 1. When one considers that this ground was plowed once in 35 years and that being last fall we wonder what crops will yield under more favourable conditions in this vicinity.

Champion's crop this year is estimated by reliable sources to be well over the million bushel mark. The estimation is 1375 000 bushels. Our present storage facilities will accommodate 390000 bushels and we understand that preparations to build five annex to the local elevators are in the wind. This will give Champion an extra 150,000 bushel storage. A total of 540,000 bushel storing capacity.

Miss Ruth Depue entertained at her home the following girls who were her classmates this year: Misses: Gerry Cope, Calgary. Chris Willox, Calgary. Betty Wright, Airdrie. Elizabeth and Elenor Goodram, Gleichen. Mary Katherine Arney, Vulcan. Elaine Torrence, Carbon.
